About Me

B. Tech pursuing student at Presidency University with communication skills and coding skills. Always consistent and focused in my work. Languages known are English, Kannada, Hindi, Telugu, Tamil. I'm Adaptive and Quick learner. Hobbies are Singing, Cooking and Volunteering. I have received appreciation being a Class Representative and also as a Student Club Coordinator. I'm interested in coding, programming and willing to do research in the field of AIML and Data Science.

Education Qualification

- B. Tech in Computer Science Engineering with specialization in AIML
  Presidency University, Bangalore-560064
  2023 – 2027
  CGPA: 9.1

- Pre University
  Reva independent PU college, Bangalore-560032
  2021 - 2023
  PERCENTAGE: 93%

- SSLC (10th)
  RT Nagor Public School, Bangalore-560032
  2011 – 2020
  PERCENTAGE: 89%

Work Experience

1. **AI Intern – Wipro 3D**

- Completed internship in the AI tools for animation and content creation domain, contributing to the development of an online course platform.
- Applied e-learning development and digital content creation skills using Moodle, Xperiencify, FlexClip, PlayHT, and other AI-powered tools.
- Created and optimized interactive course content, animated visuals, and multimedia learning materials to enhance learner engagement.
- Implemented AI-driven content workflows for video editing, animation, and voice generation to streamline course production.
- Certified in the usage of AI-based tools for online education, animation, and multimedia content creation.

2. **VICE-PRESIDENT – University Club**

- Leading and managing a technical team to plan and execute workshops, hackathons, and coding events
- Coordinating with faculty advisors and core committee for smooth technical and administrative operations
- Engaging with event planning, task delegation, and timeline management across multiple activities
- Supporting technical initiatives including web development, programming, and problem-solving sessions

3. **SOCIAL MEDIA OUTREACH – University Club**

- I served as a media outreach for Android Development Club (SIGMA) where we mainly focus on development of Android applications and also conducted many webinars, seminars, hackathon and Codothon etc.

4. **TEAM LEADER - University Project**

- Participated in university innovation expo "ARDUINO ' on topic of Smart Home Security project using Arduino with multiple sensors. The duration or the project was 3 months.
- Participated in university innovation expo "RASPBERRY PI" on topic of Smart Parking System using IR Sensors and Ultrasonic Sensors. The duration of the project was months.

5. **VOLUNTEER – University Events**

- Participated voluntarily in club activities and university events also in IEE Events conducted in our university. I have been coordinating students in club activities and also help students to build their early career.

Skills

- Strong Communication (English, Kannada, Hindi)
- Programming Languages (C, C++, Java, Python, HTML, SQL)
- Leadership and Team Management.
- Problem solving Techniques using OOPS and DSA.
- Knowledge in Database creation using MySQL and SQLite.
- Critical Thinking
- Project Planning.

Certifications

1. Tata Cybersecurity Security Analyst Job Simulation on Forage.
2. Software Engineering Job Simulation Accenture on Forage.
3. Python Programming Certification Course Scaler Topics.
4. AI Video Production: Create Videos 100% with AI
5. Certified in Basic Java Programming.

6. Advances in Sustainable EV Battery Materials and their Manufacturability.

Achievements

- Awarded cash prize for my singing performance.
- Successfully created a Daily Planner app that helps users organize daily tasks and improve productivity.
- Completed a mini project in Big Data Analytics on “Smart Cities”, focusing on data driven solutions for urban planning and resource optimization.
- Conducted Deep Learning–based research for fruit disease detection, involving model training, evaluation, and technical report preparation.
